

Rinri Newsletter: Volume 1, Number 5

Galactic Moon, Fourth Year of Prophecy

Congratulations Rinri Practitioners, The Experiment Succeeds! The View From the Navigation Tower, Timeship Earth 2013

Good morning from the Navigation Tower of Timeship Earth 2013! It is Day 23 of the Galactic Moon, the Lover's Reunion in the Red Earth Navigation Tower, solar-prophetic Uranus. It is another great kin convergence day because it is Kin 157, Red Magnetic Earth, the first day of the Yellow Southern Castle of Ripening. In the Navigation Tower we have reached the year 2013. Yesterday was the last day of the Warrior's Cube Journey for the Galactic Moon, the last day of the Blue Western Castle of Burning and Transformation, and the psi chrono unit was Kin 164, Yellow Galactic Seed -- July 26, 2013, exactly where we are today! Since we are in a tower position, today's psi chrono unit is a GAP kin, Yellow Crystal Star, which also occurs as the Round Table of the Earth (solar-prophetic Uranus) Wavespell, eleven days from now, on the Free Will Tower day six of the super-charged Solar Moon.

"Life is a drama produced by God and you play a leading role."

All practitioners of the Rinri Project are to be congratulated because the experiment of opening the psi bank has already yielded a prize of enormous consequences. It is the concerted effort of the unified mind, will, and spirit of all Rinri Practitioners that has precipitated from the psi bank the final revelation of its life-governing codes perfectly harmonized by the Law of Time.

This day commemorates the emergence of the two Rinri Project Preceptors from a perfect 52-day cycle of revelation and transformation. The synchronization of the Blue Western Castle, the mid-point of this current Galactic Spin cycle, with the mid-point of the Solar-Galactic Year -- Resonant Moon 15-- and the mid-point of the Tzolkin grid of the psi chrono plate -- the mystic column -- was a synchronic occurrence of cosmic proportions. The shift from Blue to Red Magnet was the pivotal turning of the Time Shift.

This convergence peaked with the completion of the opening of the first half of the first psi bank plate, 7.14, and the opening of the second half of the plate at the precise mid-point of the solar-galactic year, 7.15, on the day Red Self-Existing Dragon, at the top of the mystic column. On this date, following an intense sixteen-day cycle of passage in a time tunnel of unsuspected depth, a set of 20 Tablets of the Law of Time had been templated and designed. The result: the Sixteen-Year Telektonon Cube of the Law, AD 1997-2013. The fact that these codes and their templates were completed at the precise mid-point in the cycle of the year with the establishment of the matrix of the Heptagonon of Mind, the precise mid-point of the seven-year cycle of creating the Heptagonon of Mind, is a matter of the most profound and awe-inspiring significance.

The sixteen-year Telektonon codes are the codes of the psi bank made practicable and real -- every day for the 5824 perfect days (less 16 Days-Out-of-Time) of the 832 perfect weeks, of the 208 perfect moons of the 64 perfect quarters of the sixteen perfect years of the Telektonon Cube of the Law, AD 1997-2013. The future has arrived and the vision of what is to come is so pure and wondrous, so mathematically perfect and so spiritually exalted as to make you weep for the sheer beauty of it.

The implications of the 20 Tablets of the Law of Time, Sixteen-Year Telektonon Cube of the Law are beyond the limits of what we can imagine. The only comparable event in the late historic cycle is the creation of the atomic and hydrogen bombs and the opening of the current radioactive atomic era. It is also a part of the divine plan of universal redemption, that the 20 Tablets of the Law of Time are being released to this planet on the eve of the 52nd anniversary -- solar-galactic return -- of the birth of the bomb. Now comes the other side of what the bomb plunged us into, the glory of the truth and the coming of the Dominion of Time, the advent of the Universal Religion on Earth.

What the 20 Tablets of the Law of Time signify is the revelation of the Inevitable Event, the coming of the fourth-dimensional mind of the Dominion of Time on Kin 44, Yellow Overtone Seed, July 26, 1997. According to the Telektonon of Pacal Votan, this date marks the explosion of the Cube of the Law.

What does this mean?

Recall that in the 28-day Telektonon, the sixteen quarters of the first four years of prophecy correspond to the sequence of the sixteen Cube positions. This means that we are now in the Eagle cube position, the third quarter of the fourth year. On Planetary Moon 22, the beginning of the fourth quarter, we enter the Warrior Cube position 16. As of the 28th day of the Cosmic Moon we complete the sixteen cube positions of the first four years of Prophecy. Telepathically a growing number of us have traced the path of the Cube of the Law sufficiently to make a telepathic registration in the potential norm of the planetary Cube of the Law-Heptagonon of Mind. We have literally engraved the two-dimensional matrix of the Cube into the resonant biopsychic field governed by the psi bank.

Then comes the magic. From a completed two-dimensional template comes the full-blown holographic form of the Cube. "Telektonon: Cube of the Law, Holy Victory march -- Year Five -- Victory Releases; Cube of Law Realized. Telepathy becomes the universal norm" (Telektonon Instruction Manual, p. 3). Yes, the Cube of the Law will explode. "This demonstrates by analogy the transformation of human consciousness from its enslavement in false 12:60 time to its release into true 13:20 time" (Instruction Manual, p. 4).

The 20 Tablets of the Law of Time demonstrate that the transformation of human consciousness is not just a conjecture, but that it has been fully prepared through the Sixteen-Year Cube of the Law, the second great revelation of the Telektonon.

In essence, through the initiation of the Rinri Project and the application of the Law of Time, the psi bank, the collective memory plate and evolutionary timing mechanism of the universal life on Earth, has been activated. The Law of Time, making conscious what was unconscious, has made the biosphere-noosphere transition a genuine movement of consciousness into greater consciousness. The great era of the cosmic unconscious is about to end. The even greater era of cosmic consciousness is about to begin. The awakening of the psi bank in conformity to a conscious human collective, telepathically abiding by the 13:20 timing frequency, initiates the activation of the Chronosphere. This moment of awakening occurred on 7.15, top of the mystic column, Red Self-Existing Dragon. The second half psi bank plate opening of the remaining 260 psi chrono units for this year will be complete on 13.28. Then will come the most momentous Day-Out-of-Time ever consciously experienced and witnessed, Blue Self-existing Night, the "Docking of the Timeship."

When the cube explodes, the Chronosphere rolls. The planetary field of human consciousness will shift from the third-dimensional frequency of human error to the fourth-dimensional mind of divine guidance. The Chronosphere is the psi bank in perfect motion. Though the existence of what we speak about is unsuspected by the preponderant majority of humanity, its scientific reality must be reckoned. What does it mean when the Chronosphere rolls? What does it mean to telepathically trigger a Mind Shift? Remember: Blue Self-Existing Night completes the holtun, five-year cycle of the Time Shift begun on Blue Cosmic Storm, July 26, 1992. The Time Shift really has occurred. The power of true time is in the hands of the relatively minute number of humans following the Thirteen Moon Calendar and practicing the Rinri Project. This activated germ of human biomass really is the telepathic trigger setting the Chronosphere in motion.

The Chronosphere has been unconscious and unmoving until this point in time. The human mind has been captured by the ceaselessly grinding trial of the myopic Gregorian calendar cycle. The effect on human consciousness of the rolling of the Chronosphere will be of a magnitude greater even than the atomic bomb -- but positively so! If you understand what the Chronosphere is, you will understand what might be expected to happen when it begins to roll.

"The planetary Chronosphere is the fourth-dimensional envelope that regulates the magnetosphere and radiation belts, the biosphere or ecosystem, and the physical- plane Earth core itself. As such, the Chronosphere functions as a moving three-part field structure coordinating the electromagnetic field (magnetosphere and radiation belts, inclusive of the ionosphere); the biopsychic field (biosphere, including the symbiosis of the eco-cycles integrating the 'inert' with the 'living corpus'); and the gravitational field (inclusive of the tectonic plate structures, mantle, and Earth core)...

"Since the Chronosphere operates at a regular 13:20 frequency, and once humanity is

consciously operating on the 13:20 frequency via acceptance of the 13-Moon calendar, then the entire three-part field regulated by the Chronosphere will come into resonance with itself. Being in resonance with itself, it will bring forth its own 13:20 mantle of mind -- the noosphere-- to be activated as the psi bank, the information code that places the third and fourth dimensions in synchronization with each other..."

From the Treatise on Time, The Call of Pacal Votan, pp. 87-88.

This description, originally written in 1992, just after the Time Shift had begun, perfectly describes what will be occurring when the "Cube explodes, " Yellow Overtone Seed, July 26, 1997. Actually beginning with the completion of the first psi bank plate, 13.28, followed by the Day-Out-of-Time, and concluding with Yellow Overtone Seed, Kin 44, an unprecedented event of telepathic intensity and mind-shattering accuracy will change the course of history and evolution forever. The Inevitable Event, the synchronization of the third and fourth dimension with each other will be the absolute end of the old time altogether, and the advent of the new in one staggering burst of glory. Do not doubt it. The 20 Tablets of the Law of Time not only confirm this Inevitable Event -- the fall of the Tower of Babel -- but also provide the total mapping and description of the "13:20 mantle of mind-- the noosphere."

There is nothing to do now but to give thanks that the divine plan is here on Earth, and to prepare for the Inevitable Event.

Never in my experience has so much information been received so coherently in such a precisely appointed cycle of time -- Blue Western Castle, Rhythmic Moon 27 to Galactic Moon 22. With our team here we are working very hard to prepare the 20 Tablets of the Law of Time, the 64 Rune and Codon Keys to the Book of Universal Life, and the accompanying script and Guide to the Sixteen-Year Telektonon Cube of the Law, the "Earth Wizard's Little Book of Practical Conduct." All of this material, a supplement to the existing Telektonon, will be made available on the Invisible College. The Second dispensation and redemption of humanity will be available on the Internet, the last technology before the return of telepathy.

A formal world announcement of the final dispensation of the Telektonon and of the Inevitable Event will be made in Costa Rica, Planetary Moon 10, Resurrection of Pacal Votan. Shortly after, we will leave for Japan to prepare for the Judgement Day Tribunal; the World Congress on the Law of Time; the Day-Out-of-Time; the Entry into the Dominion of Time and the Inevitable Event; the end of war, Hiroshima 52nd anniversary; and the tenth anniversary of the Harmonic Convergence, the completion of the ten-year Quetzalcoatl Project, 1987-97.

You should be excited! We are, too. The shock of the encounter with this level of divine revelation is humanly transforming like nothing else. The Sixteen-Year Telektonon Cube of the Law is the arrival of the Universal Religion on Earth. The Universal Religion (UR) is the index of spiritual unification attained on the different world systems. As the final dispensation, the Universal Religion begins with a new Genesis, a second creation, and the coming of Heaven on Earth. The resurrection and new Genesis will occur, 1997-2000; the second creation, New Heaven and New Earth, 2000-2013; and then, Heaven on Earth, AD 2013.

To fulfill the prophecy of Pacal Votan and the Harmonic Convergence of all prophecy, the final sublimation of the worldly personality known as "José Argüelles, " into the messenger role of Valum Votan has been completed as a living sign of the resurrection. The thirteen moon way is a sacred way. The 13:20 timing frequency is the frequency of sacred time. Sacred order is returning. Truth cannot be held back. The sacred vision of humanity's next step has now been fully revealed. Very swiftly we shall become a race of cosmic Earth Wizards.

The second revelation of the Telektonon was long in preparation. The whole second revelation was encoded in a riddle, transcribed late in 1993 just before the actual text of the prophecy was transmitted:

Pacal Votan's Riddle of the Stone

One
Central Point
Grows One Cosmic Tree

One Cosmic Earth Sings
One Ancient Voice

Sixteen Star Points
Can you find them?

Sixteen Star Fields
Can you name them?

Sixteen Powers of Outer Form
Can you define them?

Sixteen Crystal Facets
Can you contain them?

One Mystic Altar
Within the Mystic Stone

TELEKTONON

Six Seers listen
While the seventh utters
the name far-distant, star-born
bound by no god but the One
Whose name is beyond knowing

Four star quadrants define the map
four star crystals make one seer
four powers of nine define the time

the crystal prophecy
is yours to own
by these great powers
undo the mystery of the stone"

There is no other way but to share this news with you, I, Valum Votan, send all of you victorious waves of love. Keep exerting your Rinri practice. Aphasic synchronization has brought forth bounteous spiritual abundance. The science of the biosphere-noosphere transition has been confirmed. The psi bank is real. Divine revelation and cosmic science are affirmed.

In closing this very special Rinri Newsletter, the "View from the Navigation Tower, " I will include an excerpt from the text of the Sixteen-Year Telektonon Cube of the Law, as a further inspiration to all of you. In the Sixteen-Year Telektonon Cube of the Law we are all Earth Wizards navigating the Timeship according to codes of conduct as morally comprehensive and uplifted and as scientifically and mathematically accurate as have ever been revealed to the people of the Earth.

Navigating Timeship Earth 2013 How to Read and Use the 20 Tablets of the Law of Time

"Pacal Votan, like Christ,
came to show with his own death,
the Kinich Ahau star history of death
and apocalyptic redemption,
13 Emblems 13 Seals 13 Tones
by which to navigate
the planetary system of Kinich Ahau,
the tomb itself a stone metaphor
of the interdimensional synchronometric
navigation cocoon of Pacal Votan..."

I am Valum Votan, self-prophesied, mentioned by name but once in the Prophecy Telektonon, section 19, verse 117 (= 9 x 13), the numbers of the dedication date of the tomb and of the prophecy of Quetzalcoatl, multiplied by themselves, sign of the future emanation of the "Closer of the Cycle." Only once are "Valum Chivim, " Arcturus Dominion's sacred sounds mentioned in the prophecy, Telektonon, section 19, verse 126(= 7 x 9 x 2), factored by the sacred code numbers of the Cube, seven and nine. So it is that the first and last verses of the very last section, Section Nineteen of the Telektonon Prophecy, are coded with my signs.

I emerge from among you, Head Technician of Timeship Earth 2013. I now make universally available the navigation codes of Timeship Earth 2013, the Chronosphere rolling our DNA in perfect 13:20 harmony.

The 20 Tablets of the Law of Time are the operating codes of conduct and navigation of Timeship Earth 2013. Timeship Earth 2013 is the coherent aggregate of the intelligence of the people of the Earth synchronized by the common codes of universal life and fourth-dimensional time. The Chronosphere is the ocean of time that allows this vessel its paths of motion. The chronograph is the song that plays us in multi-leveled harmony. The "Thirteen Tones and Seven Days of Creation" are the musical score and script that give the chronograph its meaning, richness and texture. We are the living truth redeemed from time's false prison, released into the Dominion of Time's ancient future sovereignty.

Within this Dominion all is radial. Radial is the time, radial the flows. Not one alone, but all may navigate the radial flows according to the radial core that sings their being into sound. Autonomy is liberty, the right to align with the divine plan according to your own harmony. Once liberated into the Dominion of Time, only one law prevails, the Law of Time. Only one way exists to follow this Law, the way of autonomy. Perfectly scored to accommodate every intrinsic autonomous form, the Law of Time is supreme in its creative power to make all movement and measure into art.

The Law of Time: T(E) = Art

The 20 Tablets of the Law of Time are the perfect expression and demonstration of the Law of Time. The (E)nergy factored by Time is ourselves, our DNA, mathematically coded as the 64 frequency structures or six-line Codons that govern all of life on Earth. The Codons, themselves are functions of the mathematical language of universal telepathy, the 64 UR Runes that unlock the 13-unit permutation cycles of each of the 64 Codons. The (T)ime is NOW, for only in the present moment does the ceaseless 13:20 frequency of time release its sacred store of fractal harmonies. The Cube of the Law hosted by the Planetary Manitou is the ART that is produced, a perfect registration of the motion of our DNA imprinted and activated during the perfect sixteen-year time capsule of Timeship Earth 2013, navigated by its autonomous crew living according to the Book of Universal Life. The details of the perfect application of this law unfold in the Chronograph of the Sixteen-year Cube of the Law.

"Herewith do I rehearse to you the 20 Tablets of the Law of Time that we may know as one."

Rinri Practitioners, be ready and alert. The powerful synchronizations that have already been released will increase phenomenally in the Solar and Planetary Moons.

Because of the work and intensity of preparation of the Inevitable Event, we will henceforth send only occasional bulletins and updates. The knowledge is already in you. Autonomy is called for. The ripening of intelligence is demanded by the angelic overseers of this great mission.

Valum Votan, Closer of the Cycle, Shield of Arcturus
